Training Course Descriptions

Tools of Floodplain Management (Updated)

The Tools of Floodplain Management workshop is a 2-day course designed for local floodplain administrators. It covers day-to-day activities, as well as other important issues. This course is designed to provide basic knowledge of the NFIP and has been updated to include new information, including revised application forms and the 2012 Elevation Certificate. There is no registration fee for this workshop.

9 Continuing Education Credits for Certified Floodplain Managers

** Reimbursement for travel expenses is available for attending this course in Jefferson City. Restrictions may apply. Please contact Pam Huhmann for more details.

Elevation Certificate Workshop (Updated)

The Elevation Certificate Workshop is designed for local floodplain administrators, surveyors, engineers and others who deal with the National Flood Insurance Program (NFIP). The course will provide an understanding of the information needed to properly complete an Elevation Certificate and has been updated to include new information, including the revised 2012 Elevation Certificate. Registration fee \$25

4 Continuing Education Credits for Certified Floodplain Managers
4 Professional Development Hours

Letter of Map Amendment Workshop (Updated)

The Letter of Map Amendment Workshop is designed for local floodplain administrators, surveyors and engineers. This workshop provides insight into completing FEMA's MT-EZ & MT-1 forms and has been updated to include new information. These forms are used to remove homes or residences from Special Flood Hazard Areas (SFHAs). Registration fee \$25

6 Continuing Education Credits for Certified Floodplain Managers
6 Professional Development Hours

Letter of Map Revision Workshop (Updated)

The Letter of Map Revision Workshop is designed for engineers or others interested in the map revision process. This workshop provides insight into completing FEMA's MT-2. These forms are used to map Base Flood Elevations (BFEs) or floodways. Registration fee \$25

4 Continuing Education Credits for Certified Floodplain Managers
4 Professional Development Hours

Quick 2/BFE Determination Workshop

The Quick 2/BFE Determination Workshop is designed for floodplain administrators, surveyors and engineers. Quick 2 is a simple computer program designed by FEMA to calculate BFEs for an un-numbered Zone As. Registration fee \$25

4 Continuing Education Credits for Certified Floodplain Managers
4 Professional Development Hours

* People wishing to attend this workshop should bring a laptop and have the ability to install Quick 2 software (provided) or have it installed on their laptop prior to attending the workshop.
