

L. Scott Samuels, P.E., CFM

Mr. Samuels currently manages Central Missouri Engineering Services, LLC (CMES), which specializes in offering National Flood Insurance Program (NFIP) consulting services to local governments, lending institutions, private citizens and engineering firms. He is very active with preparing and submitting letter of map changes to FEMA and has created and presents several NFIP workshops in the region each year. Prior to starting CMES, Mr. Samuels worked for over six (6) years with the State of Missouri Emergency Management Agency (SEMA) as their Floodplain Management Engineer. Mr. Samuels has also worked for the City of Portland, ME and private consulting firms in both Maine and Ohio. Mr. Samuels earned a Bachelor of Science Degree in Civil Engineering from Colorado State University, at Fort Collins, CO in 1988. Mr. Samuels is a Registered Professional Engineer in the States of Missouri, Maine, Ohio, and West Virginia. Mr. Samuels has served as an Area Director and Chair of the Legislative Committee for the Missouri Floodplain and Stormwater Managers Associations and is currently the Membership Chairman.
